- Machine learning algorithms and statistical languages: R
- GIS systems: QGIS, ESRI, SNAP, PCI Geomatica, Trimble eCognition
- Microsoft Office: Word, Excel, Access and PowerPoint
- Presenting and public speaking

Languages

- English
- Afrikaans

About

As a current honours student in Geoinformatics at Stellenbosch University, I am eager to apply my theoretical knowledge and coding skills in a practical setting. With a strong foundation in GIS systems, machine learning algorithms, and statistical languages, I am confident that I can contribute to an internship in the field of Geoinformatics. I am highly motivated, adaptable, and committed to learning and growing as a professional in the industry.

Education

- Honours in Geoinformatics** Jan 2023 - Present
Stellenbosch University, Stellenbosch
In progress
